

## Aluminum Zinc Die Casting Components

Our Product Introduction

for more products please visit us on [precision-cncparts.com](http://precision-cncparts.com)

### Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy123
- Minimum Order Quantity: 1 Perch/Perches
- Price: USD 3.88-32.88 1 Perch/Perches
- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram
- Supply Ability: 1000 Perch/Perches 10-15work days

### Product Specification

- Tolerance:  $\pm 0.01\text{mm}$
- Weight: 0.1-50kg
- Application: Automotive, Electronics, Industrial, Etc.
- Package: Wooden Case/Pallet
- Surface Finish: Polishing, Anodizing, Plating, Painting, Etc.
- Shipping: By Sea/Air/Express
- Material: Aluminum, Zinc, Magnesium, Copper, Etc.
- Mold Life: 50,000-1,000,000 Shots
- Highlight: **Aluminum Die Casting Components, Zinc Die Casting Components**

## Product Description

### Product Description:

Die Castings Components are precision aluminum alloy castings produced using gravity casting, sand casting, and low pressure die casting processes. The components are highly customizable in terms of size, pressure, and surface finish, with polishing, anodizing, plating, and painting options available. The components are packaged and shipped according to customer needs, including by sea, air, and express delivery options. Aluminum alloy castings produced by die casting are highly durable, offering a maximum pressure of 500T.

### Features:

Product Name: Die Casting Components

Package: Wooden Case/Pallet

Lead Time: 7-15 Days

Size: Customized

Tolerance:  $\pm 0.01\text{mm}$

Weight: 0.1-50kg

**Lost Wax Castings**

**Sand Castings**

**High-pressure Die Castings**

**Aluminum Alloy Die Casting**

**Zinc Alloy Die Casting**

### Technical Parameters:

Parameter	Description
Size	Customized
Weight	0.1-50kg
Application	Automotive, Electronics, Industrial, Etc.
Lead Time	7-15 Days
Surface Finish	Polishing, Anodizing, Plating, Painting, Etc.
Shipping	By Sea/Air/Express
Processing	Die Casting, CNC Machining, Etc.
Mold Life	50,000-1,000,000 Shots
Tolerance	$\pm 0.01\text{mm}$
Design	3D/2D Drawing
Highlighted	Die Casting Molds, Aluminum Alloy Castings, Sand Castings, Investment Castings

### Applications:

YWY brand die casting components are widely used in various application scenes, such as automotive, electronics, industrial, etc. Our die casting components are made of high-quality materials, such as lost wax castings, die casting molds and magnesium alloy castings. With YWY444 model, we offer efficient and reliable casting services with fast lead time of 7-15 days. The mold life of our die casting components can last from 50,000 to 1,000,000 shots, and the maximum pressure can reach up to 500T. We also provide reliable packaging service, such as wooden case and pallet.

### Customization:

Die Casting Components

Brand Name: ywy

Model Number: ywy444

Place of Origin: guangdonghuizhou

Tolerance:  $\pm 0.01\text{mm}$

Processing: Die Casting, CNC Machining, Etc.

Material: Aluminum, Zinc, Magnesium, Copper, Etc.

Application: Automotive, Electronics, Industrial, Etc.

Mold Life: 50,000-1,000,000 Shots

#### Customized Services

We provide comprehensive and customized services for Die Casting Components, including Metal Injection Moldings, Aluminum Alloy Castings, Die Castings, CNC Machined Parts, etc. Our strict tolerance control ( $\pm 0.01\text{mm}$ ) allows us to manufacture high-quality components with various materials (Aluminum, Zinc, Magnesium, Copper, etc.) for customers in various industries (Automotive, Electronics, Industrial, etc.), with a mold life of 50,000-1,000,000 shots.

#### Support and Services:

##### Technical Support & Services for Die Casting Components

We provide comprehensive technical support and services for die casting components. We can help you to select the suitable die casting process, materials, and molding tools. Our experienced staff will work with you to ensure that the components are designed to your specifications and tolerances. Furthermore, we have a wide network of die casting partners to meet the needs of any production scale. We have the capability to provide on-site die casting services, from small components to high volume parts. Our team of engineers and technicians have the expertise to ensure that the components are manufactured to the highest quality standards. We use state-of-the-art equipment and technologies to streamline the die casting process.

We also offer after-sales services and maintenance. Our team will work with you to maintain the quality of your die casting components and keep them in optimal condition. We can also provide spare parts and maintenance services to ensure that the components are running smoothly.

If you have any questions about our technical support and services for die casting components, please do not hesitate to contact us.
