

Automotive CNC Milling Parts Polishing Anodizing Plating

Our Product Introduction

for more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy123
- Minimum Order Quantity: 1 Perch/Perches
- Price: USD 3.88-32.88 1 Perch/Perches
- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram
- Supply Ability: 1000 Perch/Perches 10-15work days

Product Specification

- Coating: Powder Coating, Zinc Plating, Etc.
- Tolerance: $\pm 0.01\text{mm}$
- Material: Aluminum, Steel, Stainless Steel, Etc.
- Precision: High Precision
- Surface Finish: Polishing, Anodizing, Plating, Etc.
- Processing Method: CNC Milling
- Lead Time: 7-15 Days
- Service: OEM/ODM
- Highlight: **Automotive CNC Milling Parts, Anodizing CNC Milling Parts**

Product Description

Product Description:

CNC Milling Parts are machined components produced by Computer Numerical Control (CNC) machining process that is operated by programmed software. The CNC machines are versatile and provide high precision and accuracy with a tolerance of $\pm 0.01\text{mm}$, making them suitable for a wide range of industrial and automotive applications. It is possible to customize CNC machining parts to any complex shapes or sizes. The CNC machining process also has a fast lead time of 7-15 days, which makes it an ideal option for projects with tight deadlines.

Computer Numerically Controlled (CNC) machining parts are parts that are produced using Computer Numerical Control (CNC) machining processes. This process is operated using programmed software and allows for the production of parts with complex shapes and sizes. CNC machining offers a high degree of precision and accuracy with a tolerance of $\pm 0.01\text{mm}$, making it suitable for a wide range of industrial, automotive, and other applications. The CNC machining process also has a fast lead time of 7-15 days, which makes it an ideal option for projects with tight deadlines.

At ABC CNC, we specialize in producing Computer Programmed Machining Parts that are produced using CNC machining process. Our experienced team of engineers uses the latest CNC technology to ensure that our clients receive the highest quality components with accurate and precise dimensions. We are also able to customize CNC parts to any complex shapes or sizes. We guarantee fast turnaround times with a maximum lead time of 7-15 days.

Features:

Product Name: **CNC Milling Parts**, Numerically Controlled Milling Parts, Computer Aided Manufacturing Parts

Application: Industrial, Automotive, Etc.

Coating: Powder Coating, Zinc Plating, Etc.

Size: Customized

Tolerance: $\pm 0.01\text{mm}$

Material: Aluminum, Steel, Stainless Steel, Etc.

Technical Parameters:

Parameters	Details
Application	Industrial, Automotive, Etc.
Surface Finish	Polishing, Anodizing, Plating, Etc.
Service	OEM/ODM
Processing Method	Computer Numerical Control Milling, Computer Numerical Control Machining, Computer Aided Machining
Lead Time	7-15 Days
Material	Aluminum, Steel, Stainless Steel, Etc.
Precision	High Precision
Packaging	Carton, Wooden Case, Etc.
Equipment	CNC Milling Machine
Size	Customized

Applications:

Ywy cnc101 Computer Numerical Control Machining Parts are designed for a wide range of industrial and automotive applications. The parts are produced with precision Computer Aided Machining and Computer Programmed Machining which provide excellent tolerance of $\pm 0.01\text{mm}$. Ywy cnc101 Computer Numerical Control Machining Parts are available in various packaging options including Carton, Wooden Case, and more. OEM/ODM service is available to meet customer's specific requirements. Ywy cnc101 Computer Numerical Control Machining Parts are an ideal choice for superior performance and reliable quality.

Customization:

Customized CNC Milling Parts

Brand Name: ywy

Model Number: cnc101

Place of Origin: Guangdong, Huizhou

Coating: Powder Coating, Zinc Plating, etc.

Packaging: Carton, Wooden Case, etc.

Equipment: CNC Milling Machine
Material: Aluminum, Steel, Stainless Steel, etc.
Tolerance: $\pm 0.01\text{mm}$
High-Precision Machined Parts, Computer Aided Machining Parts, Computer Numerical Control Milling Parts

Support and Services:

Technical Support & Service for CNC Milling Parts

We provide technical support and service for CNC Milling Parts. Our service includes but not limited to:

- CNC programing service
- Tool selection and optimization
- Machine setup and maintenance
- Process optimization
- Real-time troubleshooting
- Design for manufacturability (DFM)
- In-depth training and education

We are committed to providing the best technical support and service to ensure that your CNC Milling Parts are machined to the highest quality standards.
