

Custom 3D Printed Parts PLA Material 3D Printing Plastic Parts With Sandblasting

Our Product Introduction

For more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy222

Product Specification

- Tolerance: $\pm 0.2\text{mm}$
- Surface Finish: Smooth
- Post-Processing: Sandblasting
- Application: Industrial
- Printing Layer: 0.2mm
- Color: White
- Material: PLA
- File Format: STL, IGS, STP
- Highlight: Custom 3D Printed Parts With Sandblasting,
PLA Material 3D Printed Parts,
PLA 3D Printing Plastic Parts

Product Description

Product Description:

Our 3D Printed Parts product is available in white color, which is perfect for a wide range of applications. Whether you're looking to create a prototype or a finished product, our 3D Printed Parts product can meet your needs. The white color also makes it easy to paint or decorate your parts as desired.

In addition to our high-quality 3D printing process, we also offer post-processing services to ensure your parts are perfectly finished. Our sandblasting service will give your parts a smooth and uniform surface finish, making them look even more professional and polished. Our 3D Printed Parts product has a lead time of 7-10 days, so you can expect your parts to be delivered quickly and efficiently. We pride ourselves on our fast turnaround times and exceptional customer service, so you can trust us to deliver your parts on time and to your exact specifications.

Overall, our 3D Printed Parts product is the perfect solution for anyone looking for high-quality, precise, and durable three-dimensional products. With our state-of-the-art 3D printing process, premium quality PLA material, and post-processing services, you can trust us to provide you with the best possible parts for your project.

Features:

Product Name: 3D Printed Parts

Size: Customized

Post-Processing: Sandblasting

Color: White

File Format: STL, IGS, STP

Design Software: SolidWorks

This product offers high-quality and customizable three-dimensional prints for various components. The 3D Printed Parts are post-processed with sandblasting, resulting in a smooth and refined finish. Available in the color white and compatible with file formats STL, IGS, and STP. Designed in SolidWorks for precise and accurate results, these 3D printed goods are perfect for any project.

Technical Parameters:

Application:	Industrial
MOQ:	1 Piece
Tolerance:	±0.2mm
File Format:	STL, IGS, STP
Size:	Customized
Design Software:	SolidWorks
Printing Layer:	0.2mm
Lead Time:	7-10 Days
Material:	PLA
Post-Processing:	Sandblasting

Applications:

Whether you need high-quality 3D Printed Components for your industrial machinery or intricate 3D Printed Parts for your electronic devices, ywy222 has got you covered. These parts are designed to meet the needs of various industries, including automotive, aerospace, and electronics, among others.

One of the most significant advantages of ywy222 is its post-processing feature, which includes sandblasting. This ensures that the surface finish is smooth, making it ideal for applications that require precision and accuracy. Additionally, the tolerance level of ±0.2mm guarantees that the parts will fit perfectly, without any room for errors.

The MOQ of 1 Piece makes ywy222 the go-to choice for individuals and businesses alike. Whether you need a single piece for prototyping or a large batch for production, ywy222 can cater to your needs.

Another advantage of ywy222 is its compatibility with various file formats, including STL, IGS, and STP. This makes it easy to integrate these components into your existing designs and systems, without any hassle.

Overall, ywy222 is an excellent choice for those looking for high-quality, reliable, and versatile 3D Printed Parts. Whether you need them for prototyping or production, these parts are sure to meet and exceed your expectations.

Customization:

Our 3D Printed Components from the brand ywy, model number ywy222, are customizable to meet your specific needs. We offer product customization services that cater to your requirements, including:

Printing Layer: 0.2mm

Surface Finish: Smooth

Color: White

Application: Industrial

Lead Time: 7-10 Days

Our Three-Dimensional Prints are made in guangdonghuizhou and are of the highest quality. We take pride in our ability to create customized 3D Printed Components that meet and exceed your expectations.

Support and Services:

Our 3D Printed Parts product comes with comprehensive technical support and services. Our team of experts is available to assist you with any questions you may have regarding the product's functionality, installation, and maintenance.

We offer training and tutorials to help you get the most out of your 3D Printed Parts product. Our team can also provide customized solutions to meet your specific needs.

If you encounter any issues with your 3D Printed Parts product, we offer timely and efficient repair services to get you back up and running as quickly as possible. Additionally, we offer warranty options to provide you with added peace of mind.

Packing and Shipping:

Product Packaging:

All 3D printed parts are individually inspected and cleaned before packaging to ensure quality.

Each part is then carefully wrapped in protective foam and placed in a sturdy cardboard box.

The box is sealed with tape to prevent any damage or loss during shipping.

Shipping:

All orders are processed within 1-2 business days.

We offer both domestic and international shipping options.

Domestic orders are shipped via USPS Priority Mail and typically arrive within 2-3 business days.

International orders are shipped via USPS First Class International Mail and delivery time varies by destination.

A tracking number will be provided for each order so you can track your package's progress.

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is ywy.

Q: What is the model number of this product?

A: The model number of this product is ywy222.

Q: Where is this product manufactured?

A: This product is manufactured in guangdonghuizhou.

Q: What materials are used to make this product?

A: This product is 3D printed using a variety of materials such as ABS, PLA, and PETG.

Q: Can I request a custom design for my 3D printed part?

A: Yes, we offer custom designs for 3D printed parts. Please contact us for more information.
